

Strategic preparedness, readiness and response plan to end the global COVID-19 emergency in 2022

30 March 2022 | COVID-19: Critical preparedness, readiness and response

[Download \(8.3 MB\)](#)

Overview

More than two years since the first SARS-CoV-2 infections were reported, the COVID-19 pandemic remains an acute global emergency. In this Strategic Preparedness, Readiness and Response plan for 2022, WHO sets out a number of key strategic adjustments that, if implemented rapidly and consistently at national, regional, and global levels, will enable the world to end the acute phase of the pandemic.
