# Towards GPW 14 – a strategy for global health, 2025-2028

2<sup>nd</sup> Member States Consultation on the development of GPW14

20 October 2023

---

# Today

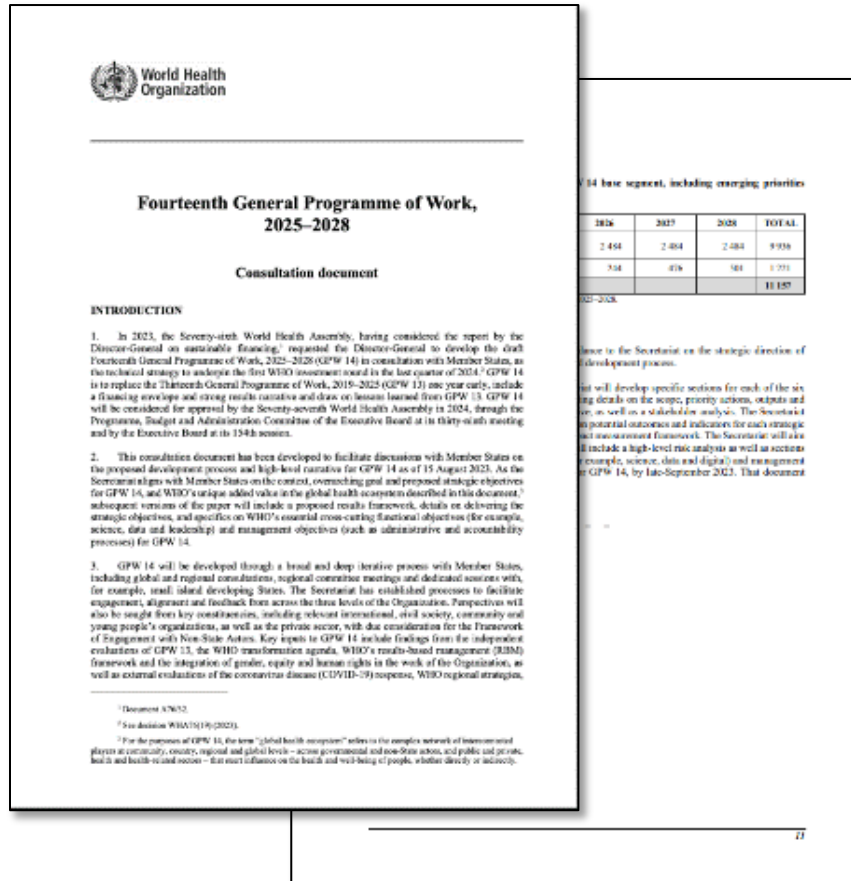

- Recap – 1<sup>st</sup> GPW14 Consultation Document
- Update – **GPW 14 development** process & timeline
- Discuss – potential GPW 14 **outcomes**
- Update – enhancing **impact measurement** for GPW14

---

## **(i) Recap – 1<sup>st</sup> GPW 14 Consultation Document**

# 1<sup>st</sup> GPW14 Consultation Document

15 Aug 2023

## Contents

- **Context:** a dramatically different world
- What's new in GPW 14?
- **Overarching goal & strategic objectives**
- How **WHO's work** translates into impact
- Developing a high-level results framework
- Financing GPW 14

# GPW14 goal & strategic objectives

*“To promote, provide & protect health & wellbeing for all people, everywhere”*

## PROMOTE

Achieve transformative action on **climate change & health**

Ensure health at center of policy agendas that drive **determinants & root causes**

## PROVIDE

Address inequities in coverage of **essential health services & interventions**

Reverse trend in **catastrophic health spending**

## PROTECT

Ensure all countries **prepared** to prevent/mitigate health risks

Rapidly **detect & respond** to acute crises & ensure essential services in **protracted crises**

---

## **(ii) Update – GPW 14 development process & timeline**

# GPW 14 development – process & timeline

(as of 18 Oct 2023)

**1<sup>st</sup> Consultation Document**

**2<sup>nd</sup> Consultation Document**

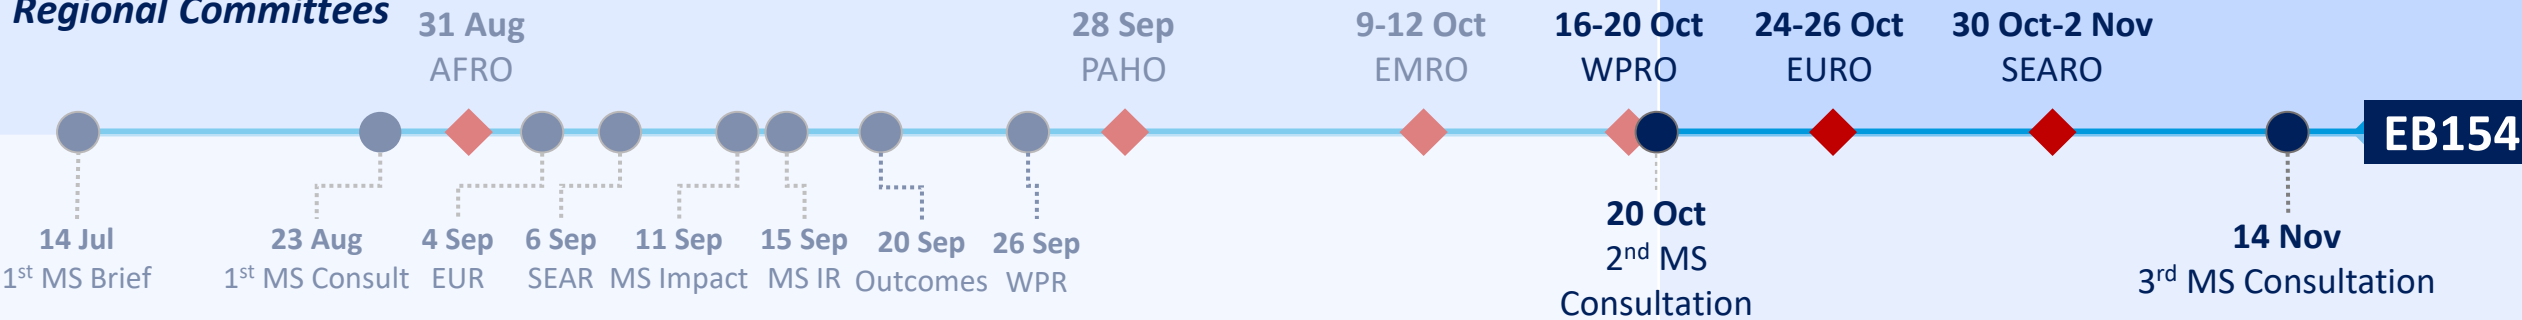

**EB Paper**

**Today**

**Member State Consultations & Regional Committees**

**Stakeholder briefings & discussions**

Partner agencies  
CSO & youth groups  
Private sector  
Other

Stakeholder dialogues & briefings

Call for written comments

*Additional Member State consultations are being scheduled as process evolves*

# Since last Member State consultation on 20 September

## *Multiple consultations ...*

- 3 Regional Consultations: AMR, EMR, WPR  
*(plus previous AFR, EUR, SEAR consultations)*
- Informal discussions in UNGA margins  
*(donors, partners, foundations)*
- SDG3 GAP & ACT-Accelerator agencies  
*(including UN agencies, Gavi, GF, CEPI....)*
- Regional Multilateral Development Banks
- informal consultations with technical networks  
*(including donor technical leads)*
- written feedback from MS & partners

## *... with implications for evolving draft*

- critical to get **outcomes right** *(granularity, narrative)*
- support for specific outcomes on essential **'health systems capacities'**
- outcomes need to **reflect role of health sector** *(& unique contribution of WHO)*
- need reflect **key cross-cutting themes** that impact multiple outcomes *(e.g. GER, equity, AMR)*
- need to **enunciate WHO contributions** *(outputs) & value add (ToC) in wider ecosystem*

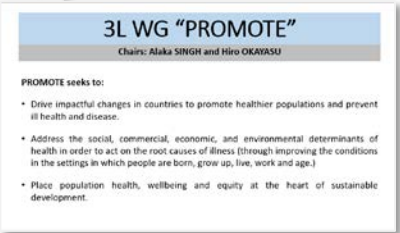

# Since last Member State Consultation

WHO 3-level Working Groups have developed a draft **scope** for each GPW14 strategic objective & **proposed outcomes**, as well as major **shifts** and **actions** needed by key **stakeholders**

*Incorporating input from Member States, Regional Committees, partners, staff*

## PROMOTE

**3L WG "PROMOTE"**  
Chairs: Alaka SINGH and Hiro OKAYASU

**PROMOTE seeks to:**

- Drive impactful changes in countries to promote healthier populations and prevent ill health and disease.
- Address the social, commercial, economic, and environmental determinants of health in order to act on the root causes of illness (through improving the conditions in the settings in which people are born, grow up, live, work and age.)
- Place population health, wellbeing and equity at the heart of sustainable development.

## PROVIDE

**PROVIDE**  
Strategic Objective GPW 14

## PROTECT

**Protect: Objectives & outcomes**

Phase	Objectives & Outcomes
Prevent	Prevent, mitigate & prepare for emerging risks to health from any hazard
Prepare	Rapidly detect and respond effectively to all health emergencies
Detect & Respond	Timely, coordinated, and effective detection & response to control public health threats
Control	Ensure equitable access to essential health services to avert health emergencies
Mitigate	Reduce health, social & economic impacts of health emergencies (HRE)

**Protect: Objectives & outcomes**

- Reduced risk of health emergencies across all regions
- Reduced health, social & economic impacts of health emergencies (HRE)
- Timely, coordinated, and effective detection & response to control public health threats
- Ensure equitable access to essential health services to avert health emergencies

# Outcomes – assessing & refining Working Group proposals

## Assessment criteria for proposed outcomes:

1. does it meet **WHO** definition of a health outcome?
2. is it clear & compelling for the **Investment Round**?
3. does it align with how **Member States** plan & organize?
4. does it reflect how **global health architecture** is organized?

**PROMOTE**  
Template for 2019 Contributions to the 2014-2019 Strategic Plan Consultative Document

**PROVIDE**  
Template for 2019 Contributions to the 2014-2019 Strategic Plan Consultative Document

**PROTECT**  
Template for 2019 Contributions to the 2014-2019 Strategic Plan Consultative Document

5 proposed outcomes

4 proposed outcomes

4 proposed outcomes

**WHO Definition:** ↓ health risk factor / ↑ service coverage

---

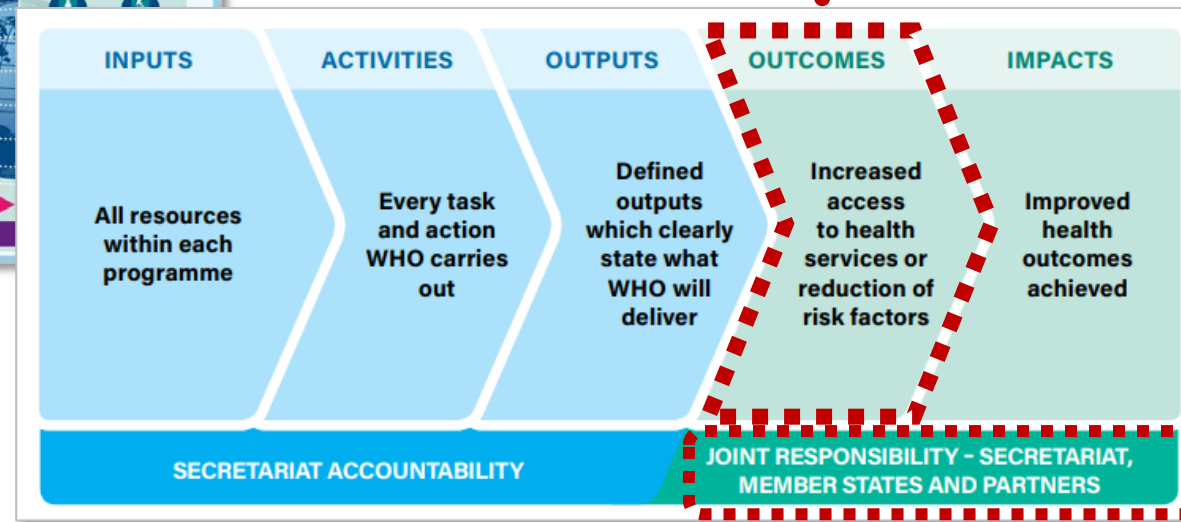

## **(iii) Discuss – potential GPW 14 outcomes**

# RECAP – definition of an outcome in the WHO results chain

## GPW12 results chain

Increased access to a health service or  
Reduction in a health risk factor

Joint role of Member States, Secretariat & partners

## GPW13 – WHO's impact and accountability framework

*Issue – outcome definition doesn't reflect vital health system capacities*

---

# Proposal for GPW14

*Complement 'health outcomes' with specific outcomes for essential health system capacities*

## Health outcomes

*Measurable change in an **individual's** or **population's health status**, resulting from healthcare interventions, treatments, lifestyle choices, or environmental factors*

## Health system outcomes

*Measurable change in **essential capacities or aspects of a health system** to enable the equitable delivery of quality health interventions & services without financial hardship*

# Refining the strategic objectives *(work in progress\*)*

## PROMOTE

Achieve transformative action on **climate change & health**

Ensure health at center of policy agendas that drive **determinants & root causes**

## PROVIDE

Address inequities in coverage of **essential health services**

Address inequities in basic **Services & Financial Protection**

Reverse trend in **antimicrobial resistance**

Strengthen essential **Health Systems Capacities**

## PROTECT

Ensure all countries **prepared** to prevent/mitigate health risks

Rapidly **detect & respond** to acute crises & ensure essential services in **protracted crises**

# PROMOTE: draft outcome proposals

## Strategic Priority

## Outcome Theme

## Working proposal

Climate change

1

1.1 Adaptation

- deliver **climate resilient health system** to address health risks and impacts of climate change that affect populations differently

1.2 Mitigation

- build **low-carbon health systems & healthy, low carbon societies**

Health determinants

2

2.1 Health determinants

- Improve healthy life expectancy & reduce inequities by **acting on social, economic, environmental & commercial determinants, and investing in public goods for health**

*Should 2.1 & 2.2 be combined?*

2.2 health risk factors

- **address risk factors** for NCDs, communicable diseases, violence and injuries and mental health to improve health outcomes

2.3 Health promotion

- **empower populations** to increase control over their health through policies & programmes that create healthy living environments and involve communities in decision-making

# PROVIDE: draft outcome proposals

## Strategic Priority

## Outcome Theme

## Working proposal

*Should major package elements be separate outcomes?*

Service coverage & financial protection

3

3.1 comprehensive package of services

- Increase equitable access to **comprehensive packages of health services** (focus on NCD, mental health, communicable disease coverage, RMNCAAH gaps)

3.2 Financial protection

- Reduce **financial barriers and catastrophic spending** due to out-of-pocket payments on health

*Combine 3.2 with 4.1?*

Essential Health System Capacities

4

4.1 Essential capacities

- strengthen **essential capacities to deliver** on Promote, Provide & Protect (focus on workforce, financing & digitalization gaps)

4.2 Reorienting to PHC

- enhance **PHC approach** to strengthen service delivery & accelerate progress on UHC/Health Security and address inequity emerging challenges

*Should key system capacities separate outcomes?*

# PROTECT: draft outcome proposals

## Strategic Priority

## Outcome Theme

## Working proposal

Prevent & prepare

5

5.1 risk reduction

- **Reduced risk & mitigate impact** of health emergencies for **all hazards**

5.2 preparedness & resilience

- **Enhanced preparedness & readiness** for health emergencies

Detect & respond

6

6.1 detection & response

- Timely & effective **detection & response** to acute public health threats

6.2 essential service delivery

- Equitable, sustained access to **essential health services** during emergencies

---

## Next Steps – content

Develop 2<sup>nd</sup> GPW14 Consultation Paper (November) to include:

- proposed **outcomes** for each Strategic Objective,
- further details on **key shifts/actions** for each Strategic Objective,
- **priority WHO outputs** for each outcome,
- overview of WHO cross-cutting **Core Technical & Management Functions**
- further perspectives on **Theory of Change** for GPW14

---

# Initial questions for Member States feedback

- a) Do Member States agree to complement 'health outcomes' with **'health systems' outcomes** as proposed?
- b) Do the **major directions of the proposed outcomes resonate** with Members States and how they organize their health services?
- c) Do MSs have perspectives on **whether to aggregate or breakout** the (i) major elements of service packages (e.g. NCDs, CDs, MH, MCAH) and (ii) essential health system capacities (e.g. workforce, finance, digital) as separate outcomes?

---

**Member States invited to provide additional  
written feedback by Mon 30 Oct 2023**
